The Memphis metropolitan area enjoys a strategic geographical location which has strongly contributed to a rapidly expanding economy and population. Known as "America's Distribution Center," Memphis has very good transportation facilities and is home to some of the nation's largest corporations. The growth has been wide spread among residential, office, retail, and industrial markets. The most growth has occurred in the eastern sections of Memphis/Shelby County and DeSoto County, Mississippi.

Most new residential construction is occurring to the east, northeast, and south of the city limits due to the availability of raw land. Memphis' population center is generally moving to the east and south, as is much of the commercial, office, and industrial development.

Primary highway access to the area is provided by State Route 14 (Austin Peay Highway), which serves as a primary connector from Shelby County to Tipton County. Additional access to the area is provided by S.R. 385 (Paul Barrett Parkway), which currently extends east/southeast from the City of Millington through Arlington to Interstate 40. The Memphis International Airport is located about 40 miles from the property; travel time is about 50 minutes, depending on traffic conditions. The Memphis CBD, the economic and cultural center of the region, is approximately 30 miles from the property.

The property is located approximately 2.5 miles from Atoka. The following are the demographics for Atoka's zip code, 38004:
